The Use of Images of Children

Dear Parent/Carer/Guardian

There are sometimes occasions when we wish to take photographs or make video recordings of children at our Club. Sometimes this is for strictly educational and training purposes. On other occasions it may be for other purposes e.g. taking photographs for use on the Club web site, for Publicity situations such as newspaper articles when reporting or covering events we attend or hold. These will never include photographs which show full length images of children in swim suits and the photographs where possible will be group shots which should be head and shoulders or full clothed (ie wet suits) or action shots in the water. There will be no names, addresses, ages or schools mentioned without prior warning.

In order to comply with the Data Protection Act 1998, the Club needs your consent before taking photographs or making video recordings of your child for purposes which are not part of its core activities. We should therefore be grateful if you could answer the following questions, sign and date the form and return it as soon as possible.
